

★Maximum working pressure	10Bar
★Maximum working pressure difference	3Bar
Maximum medium temperature	110°C
★stroke	3.5-3.8
★KVS	5.2±6%
★Nickel plating	
★Closed valve height	11.5±0.2
★After the valve is closed, lift up 0.5mm, F=40-50N	
Note: "★" indicates special characteristics; "0" inner ruler Inch is a non-reference size; "☆" indicates key characteristics	

- skills requirement:
1. The surface must not have pits, damage, The thread cannot be damaged;
 2. Unmarked size difference according to the attached table;
 3. "△" is expressed as a key control project, a total of 7;

Unfilled dimensional tolerance						
0~3	3~6	6~10	10~18	18~30	30~50	50~80
±0.1	±0.15	±0.2	±0.22	±0.25	±0.3	±0.35
					±0.4	±0.45
						±0.6
